

MANIKANDAN K

Computer Science Engineering Student | Cybersecurity Enthusiast

PROFESSIONAL SUMMARY

Computer Science Engineering student specializing in Cyber Security, with interests in cybersecurity, Linux, computer networks, software development, Generative AI, and open-source technologies. Experienced in building and prototyping software applications using modern development and AI-assisted tools, with a focus on practical problem solving and continuous technical development.

TECHNICAL SKILLS

Programming Languages: Python, SQL
Cybersecurity: Cybersecurity, Network Security
Networking: Computer Networks, Mobile Network Monitoring
Developer Tools: Git, GitHub
AI / Generative AI: Generative AI, Google AI Studio, Antigravity
Other Technical Skills: Open-Source Software, FOSS

EDUCATION

Bachelor of Engineering (B.E.) — Computer Science and Engineering (Cyber Security)
SRM Madurai College for Engineering and Technology
2024 – Present

WORK EXPERIENCE

Gen AI Engineer Intern

- Subgradient Labs | June 2026 – July 2026
- Worked with the engineering team on projects involving Generative AI technologies.
- Gained practical experience in AI engineering and software development.
- Applied modern AI technologies and development tools during the internship.
- Demonstrated technical aptitude, dedication, and professional skills throughout the internship.

PROJECTS

5G Guardian — Android Network Monitoring Prototype

- Developed an Android application prototype for monitoring mobile network connectivity and network state.
- Implemented network monitoring and alert functionality to respond to changes in cellular connectivity.
- Built the application using Kotlin and Android, with a focus on background monitoring and reliable notification behavior.
- Designed the application with open-source/FOSS distribution in mind and worked toward F-Droid compatibility.
- Used Google AI Studio and AI-assisted development tools during the development and prototyping process.

ACHIEVEMENTS

National Entrepreneurship Challenge (NEC) 2025 — E-Cell, IIT Bombay
Selected as part of the college team for the National Entrepreneurship Challenge 2025, a pan-student entrepreneurship competition conducted by E-Cell, IIT Bombay.

- Selected to participate in NEC 2025.
- Invited to IIT Bombay as part of the selected college team.
- Participated in entrepreneurship-focused activities, challenges, and team-based activities

CERTIFICATIONS

Introduction to Cyber Security – SWAYAM

TECHNICAL INTERESTS

Cybersecurity | Network Security | Linux | Computer Networks | Android Development |
Generative AI | Open-Source Software | FOSS
